

DORNIER

8 Lubrication, cleaning, maintenance

Gear oil C

Gear oils released for reaper weaving machines.

Oil according to specification API GL 5 was mandatory up until April 1999. However, tests have shown that the types of oil shown here lengthen the service life of gear components.

► Therefore, always use the oil types specified in the Lubrication table, for older machines as well.

- *Dornier Gear oil HLS 90
- Mobilube LS SAE 85 W-90
- Titan Gear LS 90
- Rotra MP/S SAE 85 W-90
- Degol 3218
- Hypoid 90 LS
- Gear oil LSA 85 W-90
