TABLE OF RECOMMENDED OIL LUBRICANTS			
TROPICAL CLIMATES (0°C to +45°C)			
	SHELL	AGIP	TAMOIL
Hydraulic oil system	SHELL TELLUS OILS T 68	AGIP ARNICA 68	TAMHYDRO HVI 68
Hydraulic oil system for machines on Komatsu or Caterpillar excavator bases	SHELL RIMULA X 15W40	AGIP SIGMA TURBO 15W40	TURBO DIESEL PLUS SAE 15W-40
Transmission oil and coupling gear	SHELL SPIRAX A 80W90	AGIP ROTRA 80W90	TAMGEAR MP LUBRICANT SAE 80W-90
Transmission oil	SHELL OMALA HD 150	AGIP OSO 150	CARTER SYNT EP 150
Diesel engine oil	SHELL RIMULA X 20W50	AGIP SIGMA TURBO 20W50	EXTRA DIESEL TURBO SAE 20W-50
Grease additive for high pressure	SHELL RETINAX EP 2	AGIP GR MU EP 2	TAMLITH GREASE 2 EP
Diesel engine radiator liquid (concentrate diluted with 70% water)	SHELL GLYCOSHELL	AGIP ANTIFREEZE EXTRA	PERMANENT SUPER ANTIFREEZE

WARNING !

- Do not mix different types of oils although equivalent.
- The instructions for the oil change are described in each unit of the "Maintenance and Spare Parts Manual".
- Refer to the manual provided by the manufacturer for information regarding the lubrication of the diesel engine.
- Do not, for any reason, add more oil than the necessary amount. An excess of oil could cause the oil to come out, thereby causing problems during the operation of the machine and problems regarding pollution of the environment.
